Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Response to Arguments

1. Applicant's arguments, see "Amendment", filed 04/19/2006, with respect to claims 1 - 52 have been fully considered. Upon further review of the claims, the examiner noted that there is a plurality of distinct inventions claimed by the applicant.

Therefore, a restriction and election of species is required.

Note: The following claims were cancelled by applicant: 37, 38, 45 & 46.

Election/Restrictions

2. Restriction to one of the following inventions is required under 35 U. S. C.

121:

- I. Claims 1 – 36, 47 – 52, drawn to a bending die for use in sheet metal forming, classified in class 72, subclass 389.1.

- II. Claims 39 – 44, drawn to a method for forming sheet metal, classified in class 72, subclass 481.9.

3. Inventions II and I are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another and materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case: The apparatus as claimed can be used to practice another and materially process, for example any non metal sheet. The process as claimed can be practice by another and materially different apparatus, such as these set forth in the related art section of the the specification.
4. Upon election of either one of the invention I or II above, the applicant is further required under 35 U. S. C. 121 to elect one of the following discloses species for prosecution on the merits to which the claims shall be restricted if no generic claims is finally held to be allowed:
 - a) Embodiment as shown in Figures 4 – 6.
 - b) Embodiment as shown in Figs. 7A – 8C.
 - c) Embodiment as shown in Figs. 9 – 13.

Art Unit: 3663

d) Embodiment as shown in Figs. 14A –14B.

e) Embodiment as shown in Fig. 15A.

f) Embodiment as shown in Fig. 15B.

g) Embodiment as shown in Fig. 15C.

h) Embodiment as shown in Fig. 16.

i) Embodiment as shown in Fig. 17A.

j) Embodiment as shown in Fig. 17B.

k) Embodiment as shown in Fig. 17C.

The species are independent or distinct because they have mutually exclusive characteristics.

5. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claim is generic.

Art Unit: 3663

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

6. Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Should applicant traverse on the ground that the inventions or species

Art Unit: 3663

Are not patentably distinct, applicant should submit evidence or identify
Such evidence now of record showing the inventions or species to be
Obvious variants or clearly admit on the record that this is the case. In

Either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C.103(a) of the other invention.

7. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Conclusion

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Hung C. Le whose telephone number is 571-272-8757. The examiner can normally be reached on M-F: 07:30am - 05:00 pm.

If attempts to reach the examiner by telephone are unsuccessful, the
